Mosting of SANACC Subcommittee on Psychological Morfare

l. The SANACC Subcommittee on Psychological Emrfare met at 6900 today in Mr. Block's office with the following members present:

Chairman - Mr. Ralph Block - State Department

Gondr. David Enell - Mavy Department

Col. Clyde Righ - Air Force

Col. William McHesse - Army Department

- C11

2. Colonel Rich stated that the Air Force member of the National Security Council Staff, Lt. Colonel Hefisbower, said that the Staff was most ancious to receive a definition of what is costained within the phrase "Psychological Warfare." They wanted to know what activities it embraced. This statement led to an aimless discussion between Mr. Block and Colonel McNause.

3. In keeping with the suggestion of I stated that I was empowered to mention informally some of the present thinking at the Mational Security Council Staff level regarding the future allocation of responsibility for psychological marfare. Since the present trend at the MSC was to set up one man with representatives from the JES, State Department, and CIA to assist him, I seled that we as a Subsemmittee consider dropping all present discussions on various aspects of psychological warfare and adjourn until we hear from the Mathonal Security Council. To my surprise Commander Knoll retorted with the statement that we must "meet regularly" under our terms of reference. He did males the good suggestion that instead of dropping our meetings we could nore appre wiately, and with more realism, set our mights in keeping with west is happening in the Mational Security Council. Thus it would be most appropriate that we enumerate the various problems in different categories in the total field of psychological warfare and, with sufficient explanation documentation, be ready to present such a contribution through Salka as an official paper of the Subcommittee.

4. Mr. Block then indicated that it would take formal addien of Saladi to disband our Subcommittee. The Subcommittee numbers assured him that would not take very long.

OSD & DOS review(s) completed.

5. For the remainder of the meeting, a discussion was concurted on the basic problem raised by the Navy member at the last meeting regarding the type of agency intended by 30k/6. Mr. Michi was conspicuously giving ground from his adment stand at the last meeting when he contended that the agency should be an independently operating self-sufficient activity rather than a coordinating body utilizing to the fullest extent the functions of existing agencies.
